

Homemade Lemonade

Ingredients

- 2-3 Lemons
- 140g Caster Sugar
- 1 litre Cold water

Method

1. Cut lemons into smaller pieces, this will allow easier blitzing.
2. Once you have cut the lemons, place all ingredients in a food processor & give it a quick blitz for 10-20 seconds.
3. If you don't have a blender, bash the lemon down with the end of a rolling pin to extract as much juice as possible.
4. Pour all the mix into a bowl or jug & ideally leave in the fridge overnight.
5. Strain the mixture through a sieve & enjoy a glass with crushed ice & a sprig of mint.

Recipe Tips - Add a small handful of squashed raspberries to the mix as it goes in the fridge to make your very own Pink Lemonade. Enjoy !!
